ADVANCED TECHNOLOGY RE-IMAGINES PAPER CUSHIONING

Paper cushioning doesn't have to be hard. The PadEZ™ paper cushion system capitalizes on Sealed Air's renowned technical expertise and innovation, and introduces several patented breakthroughs that will change the way we view paper cushioning forever.

EZ DISPENSING

You control the flow of material with the PadEZ™ system by choosing: push-button manual control, foot pedal operation, batching mode, or our Cut and Hold electronic dispensing system which automatically creates a pad and then pauses until you're ready for the next one.

EZ PAPER HANDLING

The PadEZ™ system changes paper handling with several key innovations:

- **Roll Placement** — The system can be loaded from the front or the rear.
- **Auto Loading** — Our patented Auto-Loading technology uses sensors to jog the material into position, guaranteeing perfect alignment every time.
- **Adjustable Pad Width** — Allows the operator to adjust the width to accommodate a variety of product demand for increased protection.

EZ CONTROL PANEL

The PadEZ™ system features the debut of our SmartStation™ control panel, and completely redesigned and intuitive interface that significantly reduces operator training.

EZ POSITIONING

The PadEZ™ system can be configured to stand upright, online, or horizontally for under-the-table placements.

SPECIFICATIONS

Weight (without material)
166kg

Overall Size (L x W x H)
H 170 cm W 88cm L 86cm

Electrical
220-240 VAC,
3A, 50 / 60 Hz

Certifications
CE, TUV and PSE Approved
