Zerust® Safety & Quality

Zerust is committed to making safe and effective products. Our products help to reduce industry's impact on the environment by extending material life and reducing the waste and energy associated with rework or producing new metal items. A number of our products are biodegradable or recyclable.

Since 1979, Zerust products have been used by more than 5,000 companies worldwide. Zerust products are approved by many major automotive companies' toxicology departments, the U.S. military, and comply with health and safety regulations around the globe.

Zerust is a product of Northern Technologies International Corporation (NTIC). A majority of Zerust products are proudly manufactured in the USA. NTIC's management system conforms to the ISO 9001 quality Management Standard.

Warranty and Disclaimer Information: We guarantee our products conform to documented quality specifications. Product information subject to change without notice. We make no warranty of any kind expressed or implied as to the effects of use (including, but not limited to, damage or injury). For full warranty and disclaimer information visit, www.zerust.com/warranty.

ZERUST® EXCOR®

Corrosion Management Solutions

Zerust®/Excor® Stock Products List

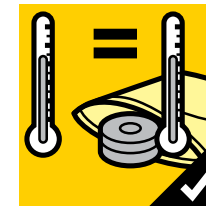

How to Use Zerust®

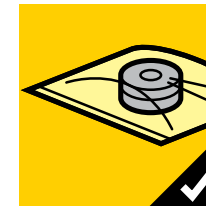

Pack only clean and dry parts.

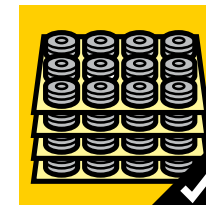

Always wear clean and dry gloves when handling metal parts to protect them from corrosion causing fingerprints.

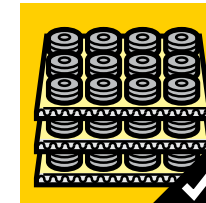

When packing, the temperature of the parts should be about the same as the room temperature to avoid condensed moisture.

Tightly close packages with tape, heat seal, zip ties or by folding over. Reseal after every use.

Insert additional Zerust materials as interleave for added protection in larger and tightly packed or layered packages.

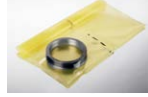

Avoid direct contact of metal with wood, paper or cardboard (sources of moisture and acid).
